Stephen,

I noticed it was e-mailed to ADEQ's attorney for the site, Jamie E., and 'cc'd to our division chief, Tammie H. Let me ask around to see if they plan to comment on it.

BTW, I checked with Doug about the exposure frequency. For the record, ADEQ HWD's risk section also uses the 250-day exposure frequency for the industrial worker scenario. He wasn't sure why the former risk assessor used 100-days.

Mark

**Subject:** Arkwood Site - DRAFT Institutional Control - Intended Version - Action Needed - 4th Email

Hello Jamie:

Pursuant to numerous discussions with ADEQ over the past year, please find a draft of a corrected Institutional Control for the review of ADEQ. Please circulate this draft to other appropriate staff/managers at ADEQ. I am also attaching the exhibits to the draft IC.

Please return any comments to me no later than Wednesday, July 10, 2013.

After ADEQ's comments are incorporated, the revised Institutional Control will be transmitted to EPA HQ, and finally to Mr. Grisham and McKesson Corporation for review and comment.

Thank you,

*Gloria Moran*
